This volume contains one hundred and fifteen plates of autograph texts and eight plates of Aramaic endorsements.

PREFACE.

This volume of texts, from the Murashû archives, completes those dated in the reign of Darius II, with the exception of a number which are in private possession. The number of the unpublished documents is about two-thirds as many as contained in this volume, and are dated in the reign of Artaxerxes I.

With the exception of the Aramaic endorsements scratched or written on the documents which are too poorly preserved to be reproduced, all that are found on the tablets of the archives in the University Museum and the Constantinople Museum, including those not reproduced in Vol. IX B. E., are brought together, and are found on eight plates following the texts of this volume. The translations of the endorsements, which are not discussed in the Harper Memorial Volumes, where most of them were published, are found in the "Description of Aramaic Endorsements."

In the previous volume I was able to identify a large number of Persian names by the help of Justi *Iranisches Namenbuch*, but not being an Iranian scholar, I preferred to seek the help of Prof. C. C. Torrey and Dr. Louis H. Gray in making the identifications for this volume. In connection with each name identified or discussed by them I have added their names. I take this occasion to thank them for their kind assistance. The identifications of the Persian names previously made, are not repeated in this volume. Several Egyptian names have also been identified by Prof. Hermann Ranke of Heidelberg. His results are published in his valuable monograph *Keilschriftliches Material zur Altägyptischen Vokalisation*, in the Proceedings of the Royal Prussian Academy.

It was my purpose to give the translations of selected texts which differ from those of the two previous volumes, but preferring to give all the remaining texts of Darius' reign, I have postponed publishing the translations, especially because of the size of the volume.

About fifty of the texts of this volume were copied in Constantinople from tablets which have been retained in the Ottoman Museum. They were copied during the month of June, 1909. In this connection I desire to express my thanks for the courtesies extended me while at work in the Museum by their Excellencies, the late Dr. O. Hamdy Bey, and his brother Halil Bey, as well as the General Secretary of the Museum, Nicolaki Efendi Ohanny. I desire also to thank the Director of the University Museum, Prof. George B. Gordon, Sc.D., for his encouragement and assistance in the pursuit of my labors.

INTRODUCTION.

The administrative documents of these archives, like the letters, are generally written in a legible hand. In copying the tablets the roughness of the surface, due to the moisture in the ground, or exposure to the atmosphere after being excavated, has not been reproduced when the writing was perfectly clear. This method of copying seems preferable, for otherwise the reading of the texts is often rendered more difficult than the reading of the originals.

As was said in the previous volumes no effort has been made to determine the reigns of the undated or fragmentary tablets. When it is possible to date them the reign can easily be ascertained by noting in what dated documents, of those published in Vol. XIV B. E., and this volume, the names on the tablets in question occur. Naturally, in most cases the dates can only be fixed approximately, because the names of individuals are in many cases found on tablets dated in more than one reign.

Several additional minor gains for the understanding of the chronology of the Cassite period result from a study of the documents of these archives. Tablet No. 134 is dated on the 22d day of Shebet in the 27th year of a reign not mentioned. The question arises to which reign does this document belong and especially as the highest dated tablet of the previous volume was written in the 25th year. Unfortunately it contains only two names which can be used in dating the tablet. *Ilu-iddina* occurs on text 132, which must have been written between the middle of the reign of Nazi-Maruttash and Shagarakti-Shuriash. It occurs also on Vol. XIV B. E., 13:3, which was written in the 5th year of Kuri-Galzu. The other name *Tu-ra-ilu* occurs on Vol. XIV B. E., 24:11, which was written in the 16th year of Kuri-Galzu. It would seem, therefore, that the tablet in question, namely No. 134, probably belongs either to the reign of Kuri-Galzu, or to Nazi-Maruttash, who ruled according to the King's list, 25 and 26 years respectively.

Another tablet, C. B. S. 11109, is dated on the 4th day of Nisan in the 27th year. The name of *Enlil-kidinni* is mentioned on this tablet. This individual appears in the documents of the reign of Burna-Buriash. It is, therefore, safe to say that the reign of this monarch extended into the 27th year, which had already been assumed by others, but on the basis of the previous tablet, which, as we have seen above, belongs to a succeeding reign.

Another tablet, No. 43, records the payment of *aklum* for the days between the 21st of Sivan and the 25th of Tammuz of the 7th year of Kadashman-Enlil. This is the year following the latest dated tablet of this reign in the previous volume. C. B. S. 13516 is dated still later in the same year, namely, the 21st day of the 8th month.

The latest dated tablet of each reign represented in the archives of the tablets thus far studied, is given in the following table:

The personal names of this and other volumes of the series will be treated in a monograph shortly to be published, entitled *Personal Names of the Cassite Period*. The discussion of certain interesting names and the revised readings of others, as well as the list of deities etc., will appear in this work. Several articles or reviews on the names have appeared since the publication of Vols. XIV B. E. and XV B. E., which volumes contain several thousand personal names, a large percentage of which appeared for the first time belonging to a period of which hitherto only a few documents were known. Notably among the

writers of such articles may be mentioned, Bork (*Orientalistische Literatur-Zeitung*, Vol. 9, Col. 588 f.), Meissner (*Göttingischen gelehrten Anzeigen*, 1908, p. 130 f.) and myself (*Zeitschrift für Assyriologie*, Vol. XX, p. 417). Many of the improved readings and omissions, as set forth in these articles, are incorporated in the list contained in this volume.

Instead of publishing selected texts as has been done heretofore in the introductions only the index of names besides the texts and description of them have been given. The translation of selected texts, however, will be published shortly in a monograph, which is in the course of preparation, on the book keeping of these administrative archives. In this work the position taken in the introduction of Vols. XIV B. E. and XV B. E., with reference to the interpretation of these documents, with some slight modifications will be more fully established. Further study of these and other texts of the archive since the appearance of the previous volumes, convinces me that my discussions contained in them of these administrative documents of the *Ekallu* or *Bitânu*, which terms are synonymous as will be shown, need very little modification.

With one notable exception the tablets of this volume do not contain important impressions of seals. This one contains an unusually large seal, one of the oldest representations of the plow known. It is found on text No. 20, which is dated in the 4th year of Nazi-Maruttash (14th century B. C.), the seal having been run over both sides of the tablet as well as the four edges. Unfortunately there is no complete impression of the seal on the tablet. Some parts were repeated several times, but others are wanting. Moreover, owing to the moisture in the earth and exposure to the atmosphere since it was excavated, the surface of the tablet has suffered considerably.

A yoke of oxen is represented drawing the plow. The name of the animal is *alpu* "ox" in the inscriptions and is called at the present time, zebu, or humped bull (*bos indicus*).¹ Three men are employed in operating the plow; one guides it; another drives the animals, who being depicted larger in size than the others is doubtless the chief of the gang; and a third, with a bag of grain on his shoulder, is in the

¹ See Clay, B. E. X., pl. XVII.

act of feeding the tube or grain drill, through which the seed was dropped into the furrow made by the plow. This is the most perfect representation of the ancient plow, as well as one of the earliest, discovered. Similar plows with the tube for sowing grain are used in

Syria at the present time. The name of the individual for whom the seal had been made, is *Arad-NIN-SAR*, which means "Servant of NIN-SAR (the god of vegetation)."

This picture of a gang of three men employed in working the plow presents an interesting commentary on tablet No. 57 of Vol. XIV B. E., which reads:

Sheum gis-bar 6 qa sha i-na libbi te-li-ti

The heading with a few additional lines of the tablet read:

The grain of the 6 *qa* tax which was given for the priests out of the taxes of the twelfth year of Nazi-Maruttash from the town Zarat-IM.

2 <i>kors</i>	2 <i>pi</i> o	<i>Laqibu</i>
	2 <i>pi</i> o	<i>Addu-bêl-kala</i>
	2 <i>pi</i> o	<i>Banâ-sha-Sukal</i>

The balance of the translation is unnecessary as it would be a repetition of the above transliteration, except the last line which closes with the words "Month Iyyar, year 13th."

The names are divided into groups of three, which doubtless represent plow gangs, as illustrated by the seal impression discussed above. The oxen of each gang received two *kors*. If two animals were used for a plow, as indicated by the seal, each animal received 1 *kor* per month. If this is correct, the men only received two-fifths as much as the oxen. It would almost seem as if the hire of man and animal amounted to what they consumed.

In the last two groups the first man mentioned, who was probably the chief of the gang, received 18 *qa* more than the others. He probably was the driver of the oxen, who, as mentioned above, is depicted larger than the others in the seal impression. The check marks (o) show that the last gang was not paid; the oxen, however, were fed, as the totals indicate, showing perhaps that they were temple property.

Again it affords me pleasure to acknowledge the kind assistance rendered me by the Director of the Museum, Professor George B. Gordon, Sc.D., who in many ways has facilitated the publication of this work.
